Dear Mr. Dodge,

McFarland White/USFS Easement Agreement

In exchange for a walk in year around easement to Big Elk Canyon I want granted to McFarland White Ranch as easement for crossing four sections corners for logging and ranching operations.

The easement from McFarland White Ranch to USFS is in sections: 27, 33, 34, and 35 T6N, R12E.

The easements from USFS to McFarland White are in sections: 6, 8, 18, 20, and 24. There are a total of four corner crossings. All sections are listed that could be involved. McFarland White only needs about 400 feet or less of easement.

Additional Comments/Considerations

McFarland White to USFS walk in only easement.

- Enclose map of Easement area and route
- Please notify when the USFS will be there
- Parking area will be worked out when walk in route is finalized

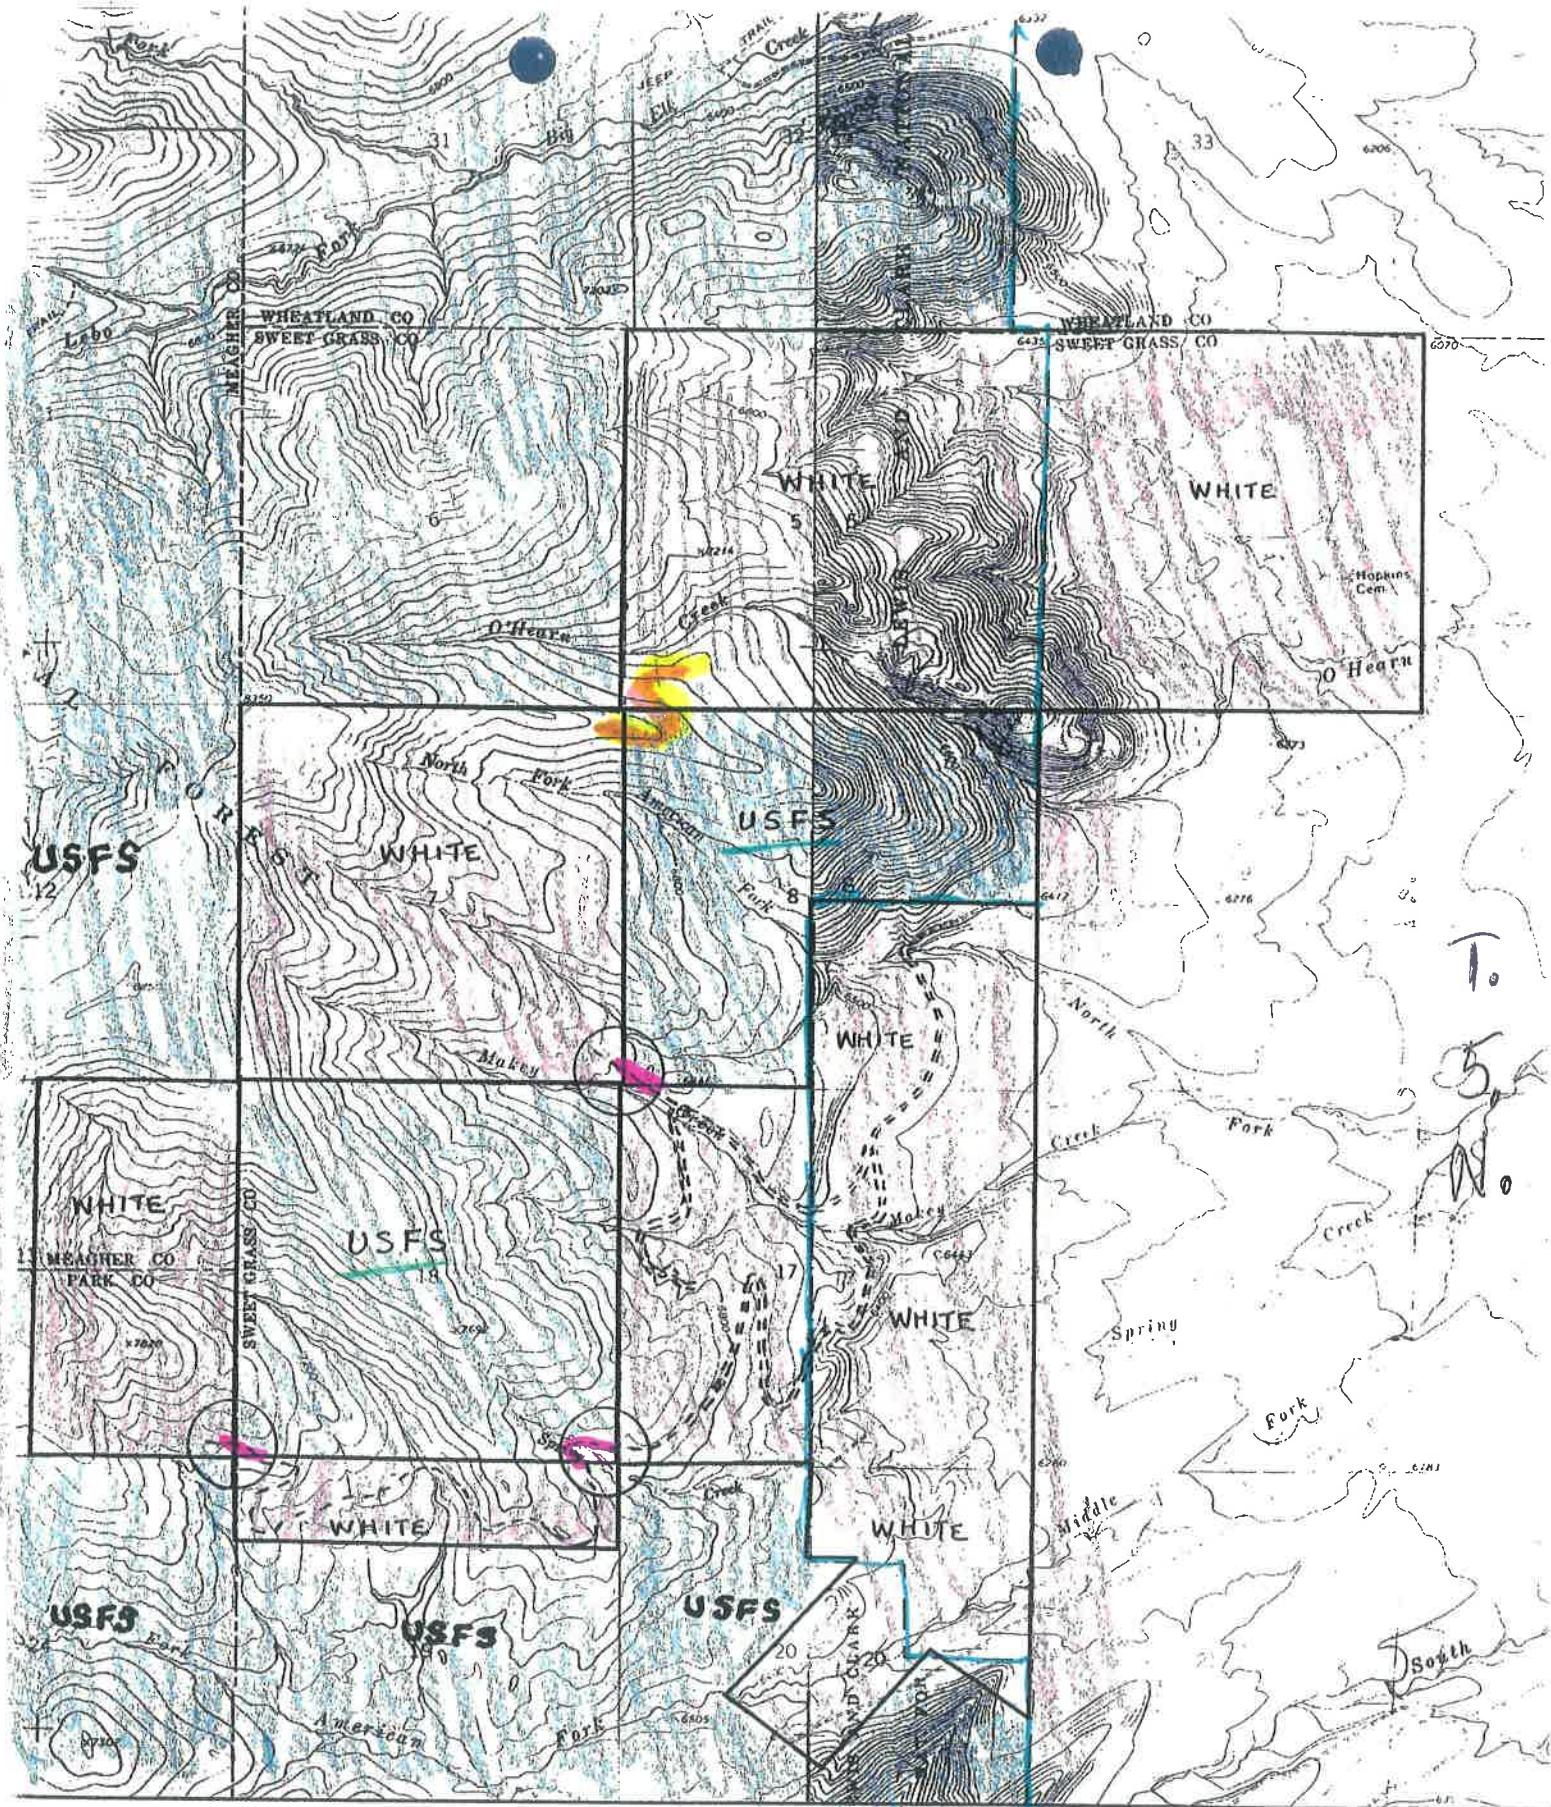

USFS to McFarland White

- Map showing sections and four corner crossings
- Approximate length of easements
- Erosion control-water bars, grass seeding requirements?

Sincerely,

A handwritten signature in cursive script that reads "Mac White".

Mac White
